## ERSO Newsletter November 2007

All parts of the ERSO website are continuously being improved. More information is added to the website on a regular basis. This newsletter informs you of all the latest developments and newly added information. Please click on the links below to learn more.

### ERSO restyled

During the spring, all visitors of the ERSO website were given the chance to communicate their opinion about the website. Using these comments, the ERSO website was recently redesigned. The entire website has been updated to better suit the users' wishes. Go to [the new ERSO website](http://www.erso.eu) now and please [let us know](#) what you think of it!

### SafetyNet Conference 2008 April 17-18 2008, Campidoglio Rome

This Conference will provide the opportunity to showcase the European Road Safety Observatory [www.erso.eu](http://www.erso.eu) and the main results of the SafetyNet project. High level speakers will open the conference and speakers from the SafetyNet project and the wider road safety community will present the European Road Safety Observatory and its role in reducing road casualties in the EU countries.

The Conference will be held in the beautiful city of Rome in the historical area of the Piazza del Campidoglio. The detailed programme including the registration form, will be available in the near future but please make a date in your diary now to attend this prestigious Conference.

To register an interest in attending this event please send an e-mail to [safetynet@lboro.ac.uk](mailto:safetynet@lboro.ac.uk).

### New additions to the Knowledge section

Recent additions on the [Knowledge section](#) of the ERSO website are:

- [Vehicle safety](#) which addresses the safety of all road users and currently comprises measures to help avoid a crash (crash avoidance) or reduce injury in the event of a crash (crash protection). Read more about [vehicle safety](#).
- Work-related motor vehicle road crashes occur at the workplace and in driving associated with work (excluding commuting). Improving [work-related road safety](#) and fleet management would much improve road safety as a whole. Read more about [work-related road safety](#).

Project co-financed by the European Commission, Directorate-General Transport and Energy

[www.erso.eu](http://www.erso.eu)

### Data section updates

Recent additions on the [Data section](#) of the ERSO website are:

- [Linking and analysing road safety data](#)
- [The problem of underreporting](#)
- [Compatibility of EU road safety data](#)
- [Recommendations for road accident investigation](#)

### Links section updates

Finding a relevant link on the ERSO website has been made easier! You can now search for [links](#) to all European road safety related organisations and projects alphabetically, by country, by focus, or by name organisation.

Also go to the events calendar for information on all future road safety related [conferences](#).

It is possible that one of the above links does not work. Please visit the ERSO website at [www.erso.eu](http://www.erso.eu) for more information.

If you do not wish to receive this newsletter in the future please [send us an e-mail](#) stating you wish to unsubscribe to the newsletter.

The ERSO website is one of the final results of SafetyNet, an integrated project funded by DG-TREN of the European Commission. Learn more about [SafetyNet](#).
