

## 1<sup>st</sup> Announcement

# Launching the European Road Safety Observatory

17<sup>th</sup> – 18<sup>th</sup> April 2008 - Rome

The European Road Safety Observatory is developed by 'SafetyNet', an integrated research project endorsed by the DG for Transport and Energy of the European Commission. The purpose of the European Road Safety Observatory is to provide a pan-European platform for the exchange of road safety data and knowledge and to support road safety policy and decision making at all levels across the 27 Member States and other European Countries.

This Conference will provide the opportunity to showcase the European Road Safety Observatory [www.erso.eu](http://www.erso.eu) and the main results of the SafetyNet project. High level speakers will open the conference and speakers from the SafetyNet project and the wider road safety community will present the European Road Safety Observatory and its role in reducing road casualties in the EU countries.

The Conference will be held in the beautiful city of Rome in the historical area of the Piazza del Campidoglio.

The detailed programme including the registration form, will be available in the near future.

Please put this date in your diary now to attend this prestigious Conference.

To register an interest in attending this event please contact us at [safetynet@lboro.ac.uk](mailto:safetynet@lboro.ac.uk).

Project co-financed by the European Commission, Directorate-General Transport and Energy
